## **DEDICATED ENGINEER FOR RENEWABLES MARKET**

KAYDON® bearing products are ideally suited to the arduous working and low maintenance requirements of renewable energy engineering applications. The company has extensive experience in this field and so too has its longstanding UK and Scandinavian distributor, R. A. Rodriguez.

Although KAYDON® remains central to its product programme for this sector, R. A. Rodriguez has also added complementary products in recent years. Framo Morat compact drives and KHK gears are typical examples and the Letchworth-based company continues to work closely with the industry to broaden its scope.

Dave Young has been appointed as Industry Manager for this growing sector. With a background in power generation, he is ideally suited to provide dedicated engineering and commercial support to customers in this field.

**- ENDS -**

*R. A. Rodriguez has over 40 years experience in the supply of precision components to manufacturing industry in the UK, Ireland and Scandinavia. This ISO 9001:2000 company acts as factory representative for a number of the world's leading component designers and manufacturers. Its product programme falls into five divisions – bearings, linear motion, aerospace, conveyor equipment, gears and associated products. R. A. Rodriguez bearing products include the world-renowned Kaydon Reali-Slim® and Ultra-Slim® designs. In the linear motion field, R. A. Rodriguez supplies a range of solutions from components and sub-assemblies through to complete turnkey systems.*
